

**The trade in used vehicles  
matters to our health, our safety,  
the environment and our wallets**

**Key concerns in regulating the trade**

**Energy  
consumption**

**Costs to operate  
used vehicles**

**Quality and safety  
of used vehicles**

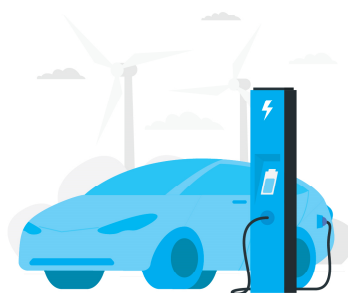

**Pollutant and climate  
emissions of used vehicles**

# Used vehicles and the environment – the path forward

Regulation of standards at the regional/global level to put an end to the trade of obsolete, unsafe, dirty and faulty used vehicles

Incentivize import of low and zero emission used vehicles

Ensure compliance with and enforcement of agreed regulations
