Tanzania Open Innovation Organisation

Building 2030 in 2023
Aligned towards the SDG's
About Us

Aim

creating a community lead initiative by empowering the people with relevant training and expertise in various sectors of interest towards successful establishments

Vision

Young innovators and makers creating solutions towards the community in various forms of products and services

Mission

efficient training and inclusive engagement with exposure to relevant skills, tools and guidance that can enable these young minds to excel in their careers and fields of interest.
How it works?

- Training and community engagement with relevant soft and technical skillsets
- Establishment and operation of the co-operative entity together
- Sustaining and scaling the model towards full scale establishment
- Exiting and handing the co-operative to the team/community members based on mutual terms of agreement
Our Approach
1. **Cost of Fuel**
   - 1ltr -> TZS 3000 (~$1.5) -> 35-40km
   - Daily use 70-80km avg or more

2. **Take home income**
   - TZS 250-300k (~$100-$150) monthly

3. **Maintenance/Repair**
   - TZS 50-100k (~$25-50)

4. **Gender balance/Equity**
   - 95% men, 5% women
Youth/Biker Groups

- 60% youth 14-35yrs
Community/Ward visits

- 27 wards
- 1988 people in total
Stakeholder Meetings
